HIGHLIGHTS

The Primary Arms SLx® 3-18x50mm FFP Gen 2 Rifle Scope brings new features and optical performance to one of our best-selling mid-power rifle scopes. These features include fully redesigned precision turrets and an integrated dovetail magnification lever. The optical system has also been updated with an enhanced 50mm objective lens, which provides a clearer, brighter view of the target with an even larger eyepiece, making it easier to set up and engage targets at varied distances.
