HIGHLIGHTS

The GLx 1x MicroPrism™ brings new technology and enhanced optical performance to our best-selling close-quarters prism scope. With its wider objective lens and updated internal design, the GLx 1x MicroPrism offers superior glass quality and edge-to-edge clarity with ½ MOA adjustments. Optimized for fast target acquisition, the GLx 1x MicroPrism has near-unlimited eye relief for consistent performance across different mounts and platforms. This MicroPrism also introduces push-button controls and improved Daylight Bright® reticle illumination. The GLx 1x MicroPrism also includes our rugged 8-position mounting system.
