

COCOONS SIZING GUIDE INSTRUCTIONS

ISOLATE YOUR EYES
COCOONS[®]

This simple to use sizing guide will help you select the Cocoons OveRx fitover frame size that most accurately fits over your prescription eyewear. To use the guide, set your print preferences with no scaling and print the document at 100% actual size. Then place your eyewear frame face down on the images of each size. If your eyewear fits within the red box, the size can be worn over your glasses. If your eyewear exceeds the red box, then you must try the next size up. The ideal fit will come from the size that is just slightly larger than your prescription eyewear.

The image of the quarter should be the same size as an actual quarter when printed at full scale. The image should be 24 mm in diameter at full size.
